

Just A Dream

Great Northern

Was I dreaming...
Was I awake...
Or did you come home
Today...
For the rest of my life...
A little pity...
For the rest of our lives...
A little pitty...

Pick up your stones and go to work on my bones
Then tell me if I'll be alright
I'll come round for this moment
The only other moment
To see you when you're down
I come round
I'll come around
See you when you're down..
This is a mistake...
Long roads never cast the long burning embers
Of your heart
When the sun rose the surface,
It removed the reflection of you
Long roads don't mean anything to me now
They're gone...
And done...
Into the sun...
For now...

Pick up your stones and go to work on my bones
Then tell me if I'll be alright
I'll come round for this moment
The only other moment
To see you when you're down
I'll come round...
I'll come around
See you when you're down...
This is a mistake...
