

Summertime

Great Northern

I'll stand in line
You'll see it'll be fine
Tried my best to smile
Kept it alive for a while

In the summertime, you'll see
In the summertime, sun and me
Think it's raining here, on me

Door is locked now, no one can see
Windows closed now, nowhere to breathe
Feel a thought beneath me
Something's wrong, your face can see

In the summertime, you'll see
Sun is beating down, on me
Have to close my eyes, just to see
