

# Momma Don't Stop

Great White

Well, I never thought I'd see you back  
On my side of the railroad tracks  
Just blown in from Tokyo  
Hanging out at the rock and roll show

You're looking for some kid to sign  
Catching jive off the grapevine  
Billboard's running a picture next week  
Hits applauds you on your winning streak

Never mind you're sleeping alone  
There's always someone else on the phone

So, momma, don't stop your rock and roll  
You might just find your heart has gone cold  
Momma, don't stop your rock and roll  
All day long

Said I'm real impressed with the things that you've done  
Look how far this lady has come  
Used to be so quiet and sweet  
But now your name's all over the street

You used to charge it by the hour  
Now you own an apartment tower  
It's a shame about your former friends  
Everyone now is a means to an end

Never mind you're living alone  
It's hard to get a scratch on the loving jones

So, momma, don't stop your rock and roll  
You might just find your little lost soul  
Momma, don't stop your rock and roll  
All night long

It's so hard to be a woman today  
To get what you deserve  
It's not easy when you walking this way  
You have to keep a distant reserve

So, momma, don't stop your rock and roll  
You might just find your heart has gone cold  
Momma, don't stop your rock and roll  
All day long

Momma, don't stop your rock and roll  
You might just find your little lost soul  
Momma, don't stop your rock and roll  
All night long
