

# Take Me Down

Great White

Hey there little rocker  
Oh yeah you know you're looking good  
Hey there street walker  
Come in out of the rain like you know you should  
I'm so hung up  
Don't know my left from my right  
You've got me looking backwards  
Don't give me the cold shoulder

Take me down tonight  
I need your crazy loving to make me feel all right  
Take me down tonight  
I want to feel your love tonight

Hey now little teaser  
I catch your eye you turn your head don't walk away  
I just want to please you  
But baby what's in my mind is better left unsaid you know what  
I mean?  
I'm so spun out  
Can't keep my head off the floor  
I can hear my heartbeat  
Pumping along with your rhythm

Take me down tonight  
I need your crazy loving to make me feel all right  
Take me down tonight  
I want to feel your love tonight

Baby you make me want to sing a love song  
Singing na na na na na every day

I'm turning circles my head is up in the clouds  
Such an easy lover she's taking me down town  
I'm so strung up can't keep my feet on the floor  
I can taste your passion come on give me some more

Take me down tonight  
I need your crazy loving to make me feel all right  
Take me down tonight  
I want to feel your love tonight

Want to feel your loving tonight  
Want to feel your love feel your love tonight  
Want to feel your loving tonight
