

See the Light

Green Day

I crossed the river
fell into the sea
where the non-believers
go beyond belief
then i scratched the surface
in the mouth of hell
running our of service
in the blood I fell

Well I, I just want to see the light
Well I, i don't want to lose my sight
Well I, I just want to see the light
Well I, need to know what's worth the fight

I've been wasted
pills and alcohol
I've been chasing
down the pool halls
then i drank the water
from a hurricane
and i set a fire
just to see the flame

Well I, I just want to see the light
Well I, i don't want to lose my sight
Well I, I just want to see the light
Well I, need to know what's worth the fight

I crossed the desert
reaching higher ground
then i found the pavement
to take the liars down But it's gone forever
but never too late
where the ever after
is in the hands of fate

Well I, I just want to see the light
Well I, I don't want to lose my sight
Well I, I just want to see the light
Well I, need to know whats worth the fight
