

Inward Tide

Green River Ordinance

Give me one thing you love, girl, that makes you hurt
And I'll be there 10 days before you call
Give me one thing you know, girl, that makes you cry
And I'll do everything in my power to make it subside

You know I'll be there for ya
You know I'll try
And when I am drifting from your love, babe
You'll be my inward tide

I, I ain't felt the same
Since I saw your face
Through the window on Washington Lane
Your voice, it echoes off the walls
Travels down the halls
Which led me back to you

You know I'll be there for ya
You know I'll try
And when I am drifting from your love, babe
You'll be my inward tide

Caught in the way that it was
It's all the same
It's all the same

I'll sail the seven seas
And get down on my knees
I'll sing this symphony
Just to bring you back to me

You know I'll be there for ya
You know I'll try
And when I am drifting from your love, babe
You'll be my inward tide
