

Love You Too Much

Greg Lake

My Mama told me you were bad news honey
She said you're gonna ruin my life
Cause I love you too much
You know I love you too much

I want to leave you, there's no denying
I must have tried a million times
But I love you too much
I just love you too much

I stand convicted, behind the bars of love
For me there is no escape,
Not even mercy from Heaven above
You've got me falling this way and that way
anyway you just ain't here
And I love you too much (love you too much)
I love you too much (love you too much)

Well you can take me honey, steal my money
step on my blue suede shoes
And I love you too much (love you too much)
I just love you too much (love you too much)

I've been neglected, while I feel no pain
coz my line's been connected and I can ring it again
and again.

That's right...

So think of what you're doing, leading me to ruin
dont be cruel baby, can't you see
that I love you too much (love you too much)
I just love you too much (love you too much)

Believe that if you hurt me, abuse me and desert me
you know that I would go down in flames
because I love you too much (love you too much)
I just love you too much (love you too much)

I declare it a state of emergency, dial 999
You've got to help me I'm falling
I just don't know if I can take it this time

You know I love you too much (love you too much)
I just love you too much (love you too much)

You know I really ought to put you down
before you make a fool out of me
but I love you too much (love you too much)
I just love you too much (love you too much)

I feel frustrated, like a tiger in a cage
You gotta release me, before I fly into a screaming
rage
You know I love you, I always said I love you
You know I love you, I always said I love you
too much (love you too much)

I love you too much (love you too much)
You know I love you, I always said I love you
You know I love you, I always said I love you
too much (love you too much)
I love you too much (love you too much)

Alright...
