

## Come Back and Help Me

Gregg Allman

None of this would have happened  
If I could've read the signs  
But every day that passes  
I feel like I'm losing my mind

A fifth of whiskey  
A pack of cigarettes  
I've been up all night  
And I ain't seem no rest

But I keep trying everyday  
Yes, I keep on trying in everyway  
Seems like the sun don't wanna shine  
Just looking for some peace of mind  
Come back and help me, darling  
Oh, come back and help me, darling

Looking out my window  
Of my lonely room  
The time has finally come  
For me to get rid of these blues

Some folks say  
You gotta live and learn  
The pain and the heartache  
Lord, sure does burn

But I keep trying everyday  
Yes, I keep on trying in every way  
Seems like the sun don't wanna shine  
I'm just looking for some peace of mind  
Come back and help me, darling  
Please come back and help me, darling  
Come back and help me, darling  
Please come back and help me, darling

Come back and help me, darling
