

Be Careful

Gregory Isaacs

Oh yeah-eh, hmm, believe me
Be careful what you do
Or love will break your heart in two
And you'll wear a frown, girl
So please keep your true love strong
Never let me find you wrong
And I won't put you down

'Cause ever since the day
You came into my life
I can see where happiness
Start showing up again, again
Showing up again, again

Alright, oh yeah
Believe me

Just stay right by my side
And by my laws you will abide
And you will be mine
Don't you ever do the wrong
I will turn weakness to strong
And things will be fine

'Cause ever since the day
You came into my life
I can see where happiness
Start showing up again, again
Showing up again, again
Again and again
