

Extra Classic

Gregory Isaacs

Sister love, whenever time you're all alone
Just pick up your telephone
And say, "My darling come on over",
Hear me, Babe
And I will

Sister love, love, love
Please don't stay away too far
You may not be a movie star, girl
But extra classic, that's what you are
Hear me, Babe
Yes, extra classic, that's what you are

Sister love, love, love
Someday I will make you mine

Just you call me any time
Whether it's raining, it's snow or shine, girl

Sister love, love, love
Please don't stay away too far, no
You may not be a movie star, girl
But extra classic, that's what you are
Yes, extra classic, that's what you are
Whether you're near, or whether you're far
Extra classic that's what you are, I know

I'm never, never going to let you go
