

Special Guest

Gregory Isaacs

Feeling kinda high, I've seen the reason in the sky
And the stars are shining bright, very bright so
Let me be the special guest for the night...yeah
Feeling kinda red, kinda red
Lots of freedom to my head,
And the mood is very right, very right so
Let me the special guest for the night
Come on and rock, come rock, come rock
Come and rock with me
I said to rock, to rock, rock, that's how we choose to be

I am feeling high...high, high, high, only genuine
Feeling kinda rude, now you put me in the mood
And you're looking very right, very right so
Let me be the special guest for the night, yeah

Feeling kinda high, I've seen the reason in the sky
And the stars are shining bright, very bright so
Let me be the special guest for the night
Come on and rock, come rock, come rock
Come and rock with me
I said to dub, to dub, to dub, dub and dub with me

I am feeling high, and no one know the reason why
...cause I'm dread, cause I'm dread.
