

I Wonder Who My Daddy Is

Gregory Porter

I wonder who my daddy is
I wonder who
Is he that man came by sometime, then went away?
Is he the one who telephones and speaks so low?
And mommy's voice is shaken when she says hello

Is he that tall man held me on his knee?
I can't remember, I was only three
My grandma says he can't be found
He's away in some other town

In every place I look, in every face I see
It's on my mind, I've gotta find this part of me
Has he a car, is he a movie star?
Does he fly the sky?
I'll wonder who my daddy is until I die

I'll wonder who my daddy is
I'll wonder who
I'll wonder who my daddy is
I'll wonder who
I'll wonder who my daddy is
I'll wonder who
I'll wonder who my daddy is until I die
Until I die
