

Overloved

Greyson Chance

I'll be your pretty sun baby with the Marlboro breath
You'll be my daisy duke, James Dean, silk vest
I think you broke into my liquor cabinet stole my rum
Think you're telling me you're ready to have some fun

I'll be your tall lanky baby with the southern drawl
Be your sunshine if you let me be the name you call
There's a reason why you left your ex at that church
Keep him praying for forgiveness

I just wanna fly with you to the sun
Drive a little dirty on the 101
Hands all on my body, make me feel overloved
El Dorado summer and the wind is hot
Get a little wild, give you what you want
Hands all on my body, make me feel overloved

I'll be your pretty rockstar, dance with you all night
You'll be my acid wash king, denim fit real tight
Life's a little too short to not do what you want
Think you're telling me you're ready to have some fun

And we can slow down
You know how I like it when you slow me down
You know how I hate it when it's cold out
Let's buy a car, skip town

I just wanna fly with you to the sun
Drive a little dirty on the 101
Hands all on my body, make me feel overloved
El Dorado summer and the wind is hot
Get a little wild, give you what you want
Hands all on my body, make me feel overloved
Make me feel Overloved

I wanna be
I need to be
Yeah
Mmm, overloved
I wanna be
I need to be
Overloved
I wanna be
Honey, I need to be
