

Polluted

Grief

if there's life in outer space
take me away from this place
beam me up - i'll volunteer
it can't be much worse than here
watching your back all the time
every single minute - crime.
raping, murder, stealing, fraud
church is a scam - so is god.
polluted souls
polluted minds
polluted beings -
we're called mankind
the earth is fucked
every one's corrupt
the system and the government SUCK
