

# Waysted Love

Grim Reaper

I'm hitting the street tonight, gotta find a friend,  
I just need a guiding light to lead me to the end  
And you've been nothing but trouble, I can't take any more,  
What do you do when your heart grows cold, no one's really sure

Girl, you know I've been this way before  
So put your foot on the heartbreak,  
Show me the way to the door

Waysted Love - you took my heart away  
Waysted Love - return it back some day  
Waysted Love

I'm tired of waiting for you to make up your mind,  
You're sitting pretty with your friends from the city, I'm leaving you behind  
But you've got what you wanted, I've gotta find what I need,  
No lies, no alibies, for someone to believe

Girl, you know I've been this way before  
So put your foot on the heartbreak,  
Show me the way to the door

Waysted Love - you don't need my love  
Waysted Love - you don't need my love  
Waysted Love - you don't need my love

I'm hitting the street tonight, gotta find a friend,  
I just need a guiding light to lead me to the end  
And you've been nothing but trouble, I can't take any more,  
What do you do when your heart grows cold, no one's really sure

Girl, you know I've been this way before  
So put your foot on the heartbreak,  
Show me the way to the door

Waysted Love - you don't need my love  
Waysted Love - you don't need my love  
Waysted Love - you don't need my love
