Overture In E Minor

GrimSkunk

People in my face Understand I need my place You take use and abuse Never give nothing in return I think you like to burn.

I do as I must
I swallow shit, I don't fuss -Don't think -- don't care -Just sit there and act unaware
Of what's been going on.

It's not my fault you're f**ked up I feel like you're laughing at me It's as if you don't give a shit If that's the way things will be Then you will see.

One day if you ever need help And you ask me I'll close the door in your face And say, "Goodbye, ASSHOLE."
