

Yet Again

Grizzly Bear

Yet again, we're the only ones
No surprise, this is often how it's done
Lately it's about all I can take
I will move and mend and mold this break.

Shell with another crack,
I'm small but I can keep track
Too soon, everyone just step away
I'm sure this isn't the last play.

Take it all in stride,
speak, don't confide,
we barely had a case.
It's done before we try,
stop and end by night,
a desert in your face.

Take score even playing fields this game,
I know when all's said we're the same.
If I could I would leave it all be,
no chance to move backwards and see

Take it all in stride,
speak, don't confide,
we barely had a case.
It's done before we try,
stop and end by night,
a desert in your face.

Take it all in stride,
speak, don't confide,
we barely had a case.
It's done before we try,
stop and end by night,
a desert in your face.
