

Punk Pt. II

Groovie Ghoulies

Standin' in the smoky dark
Same place where you left your mark
Wishin' you were here tonight
Kids are jumpin' left and right
You were everything to me
But you left us to be free
You said you were born to lose
But no one could go wrong with you
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
One time you were all the rage
But when Johnny hit the stage
You were no where to be found
Now you're living underground
You said you wish you were dead
Wish you were alive instead
I just started missin' you
Yeah one more thing what else is new
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
Ridin' rooftop in the rain
Acting totally insane
Tellin' people they were lame
Yeah get fucked up and feel no pain
King of punk, number one
You showed them how it was done
Life goes on what can you do
Well no one will compare to you
Yeah where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around for punk part two

Where were you
Where the hell were you
Not around for punk part two
Yeah where were you
Where the hell were you
Not around for punk part two
Where were you
Where the hell were you
Not around, not around
Where were you
Where the hell were you
Not around for punk part two
Yeah where were you
Where the hell were you
Not around for punk part two
