

# Change

Group 1 Crew

Woke up this morning, put on my make up  
I didn't stop to think of what's going on  
Outside my window, the world is changing  
I can't remember where it all went wrong

I see people crying and families hurting  
A mama's praying that her baby comes home  
I see the future of a better place

So I wanna make, make this a place  
Where we can forget all the problems of yesterday  
Let's make a change for a better today  
Let it begin with me, make it reality, I wanna change

I never believed that, that, that things will never change  
'Cause whenever I look back, back, nothing has stayed the same  
Except that all I see are shadows of me, times where  
I just fail to believe that faith is not whatever you see  
But hoping what it really could be

So we can make a difference if we turn it around  
The world is upside down  
The revolution starts inside, yeah

Change, make this a place  
Where we can forget all the problems of yesterday  
Let's make a change for a better today  
Let it begin with me, make it reality, I wanna change  
I wanna change

In need a better future, let's be a part of the cure  
Where unity can be the brush to paint a better picture  
We need to plant a seed of something we're all in need off  
Through God we can make this world  
Into something we only dream of

So we can make a difference if we turn it around  
The world is upside down

Make this a place  
Where we can forget all the problems of yesterday  
Let's make a change for a better today  
Let it begin with me, make this reality, I wanna change  
I wanna change, I wanna change, I wanna change  
I wanna change, I wanna change
