

# Dangerous

## Group 1 Crew

We on fire, danger  
Yeah, we been called, don't hang up  
The devil mad, ha, anger  
But we don't talk to him, he a stranger  
So we walk instead of talk it 'cause He said so

Ain't no time for waiting, no debating  
Baby let's go, pedal to the floor, gassed up  
Homie petro, tell about the blood  
That they drew when He bled so

Lived a life so reckless  
I don't know how I made it through  
Always taking chances  
And trying everything but You

So why am I playing it safe when it  
Comes to giving You my life?  
(I don't know)  
I can't let fear hold me back from  
Doing what I know is right

I felt Your spirit show me things  
That I would never believe  
Could never happen in the time in my life  
And even though it scares me just to think  
That You've chosen me, I promise I won't  
Put up a fight

I want to live dangerous  
Risk it all for You, Lord  
I need You to wake me up from  
The life I've known before

Whatever it takes, I want You to make  
Make me more like You  
There's nothing I won't give up

I want to live dangerous  
(Oh, whoa, oh, oh)  
I want to live dangerous  
(Oh, whoa, oh, oh)

I know You've been waiting for me  
To give You all I am  
Be a light in the darkness  
Strong enough to take a stand

I don't want to box You in or  
Keep You hidden anymore  
'Cause You're the only One worth  
Giving my life for

I want to live dangerous  
Risk it all for You, Lord  
I need You to wake me up from  
The life I've known before

Whatever it takes, I want You to make  
Make me more like You  
There's nothing I won't give up

I want to live dangerous  
(Oh, whoa, oh, oh)  
I want to live dangerous  
(Oh, whoa, oh, oh)

I get dangerous but it don't matter  
That ain't a thing to us  
We either live for Him or live for us  
And the fact is we don't really  
(Really)  
Know

When the end will come  
(End will come)  
So until then I'll be Your mindstar  
No more playing games 'Contra'

Wake me up to a morning glory  
Eyes to a God I know I trust to  
Bring me through the dangerous

I want to live dangerous  
Risk it all for You, Lord  
I need You to wake me up from  
The life I've known before

Whatever it takes, I want You to make  
Make me more like You  
There's nothing I won't give up

I want to live dangerous  
(Oh, whoa, oh, oh)  
I want to live dangerous  
(Oh, whoa, oh, oh)

I want to live
