

I See You

Group 1 Crew

I see you when I'm staring in my coffee cup
Or when I'm downtown as I wait for the bus
I see you, oh, how I see you
Oh, on the lonely nights when I stare at the stars
And how the trees blow as I walk through the park
And I see you, oh, how I see you

I see you in my mind and every time I wake up
Reminds me of the time when I was trying to find love
And I would, try so hard to show you how good I was
But all I did was prove that it was never enough

'Cause you loved me like I was your sweet buttercup
And I'm addicted to the way that you would never give up
I see us on the cover of our own magazine
We call it "Life in the arms of a king" and we would talk about

Everything and anything
And every time that you would sing my heart would ring
So I had to pick up, I'm glad that it was you on the line
'Cause you, got me, got me out of my mind, c'mon

I've seen the highs, I've seen the lows
But where I'm going is a question that I'll never know
But what I know is that you'll always be there for me
That's why I see you in everything

Good friends they come, good friends they go
It's just a product of this crazy world and how it goes
What doesn't change is that you'll always be there for me
That's why I see you in everything

Your energy molded to take its natural form
Tangibly known through a song makes a heart feel at home
A quiet whisper through the breeze in the trees
Is how you let it be shown so I can cherish every moment that is born

My life has been better since I've read your love letters
Stress has gotten light like feathers and your genuine like leather
You made this man walk on a different level
My past is settled, I'm attached like Pinocchio and Gapetto

A masterpiece composed the greatest story ever told
There hasn't been a better headline published in the post
I won't go any where your love won't go
I've been told if it ain't broke leave it alone

I've seen the highs, I've seen the lows
But where I'm going is a question that I'll never know
But what I know is that you'll always be there for me
That's why I see you in everything

Good friends they come, good friends they go
It's just a product of this crazy world and how it goes
What doesn't change is that you'll always be there for me
That's why I see you in everything

You got me falling, got me falling for your love
And now I'm wondering if I'll ever get enough
Ain't no sunshine, ain't no sunshine
When you're not on my mind
It's so amazing how you're making me feel
When I see you I know that it's real

I've seen the highs, I've seen the lows
But where I'm going is a question that I'll never know
But what I know is that you'll always be there for me
That's why I see you in everything

Good friends they come, good friends they go
It's just a product of this crazy world and how it goes
What doesn't change is that you'll always be there for me
That's why I see you in everything

I've seen the highs, I've seen the lows
But where I'm going is a question that I'll never know
But what I know is that you'll always be there for me
That's why I see you in everything

Good friends they come, good friends they go
It's just a product of this crazy world and how it goes
What doesn't change is that you'll always be there for me
Always be there for me
