

Inevitable

Group 1 Crew

I heard it might be a risk, but I'll take my chances
They're telling me I should give up, but that's never gonna happen
I wasn't made to stay underground, gravity can't keep me down
No gravity can't keep me down, no no no
I know my name ain't up in lights, but you gon' see it there one night
Yeah, you gon' see it there one night, yeah yeah

Sooner or later, it's gonna find us
I've always felt it in my soul
All of my life, I've always known
So close to the spotlight
It's my chance to blow out
I always felt it in my soul
It's inevitable
It's inevitable

I'm on a flight to my destiny
Nobody else there but you and me
I look below, and all I see is doubters
But I'm a dreamer, tell me how the world would look without us
You think I'd still be on a PC if Jobs didn't even take his job seriously
See you think the world would still rock 23
If Jordan didn't tell his high school coach, "Man, please"
See the difference between everybody and the ones who make it
Is the faith you got to know you wasn't made to take up space
And if I let somebody lesser be the one to take me down
I can't blame no one but myself, I was born to wear a crown

Sooner or later, it's gonna find us
I've always felt it in my soul
All of my life, I've always known
So close to the spotlight
It's my chance to blow out
I always felt it in my soul
It's inevitable
It's inevitable
It's inevitable
It's inevitable

Sooner or later, it's gonna find us
So close to the spotlight
It's my chance to blow out

Sooner or later, it's gonna find us
I've always felt it in my soul
All of my life, I've always known
So close to the spotlight
It's my chance to blow out
I always felt it in my soul
It's inevitable
It's inevitable
It's inevitable
It's inevitable
