

# Lean On Me

## Group 1 Crew

You can always lean on me

Yeah, I know the way things turned out  
Yeah, weren't exactly how you planned them out  
Just know I'm here to hear you out  
Before you chose to hit the wrong route

See, I know life is a funny thing  
We've all had our fair share of bad comedians  
And things get messy when it hits the fan  
But I'll be there just to help you to the very end

I can be your Mister Clean, just wipe them tears  
Sweep away them fears be the perfect team  
Just tag me in, I'll near to be the friend that you need

I can feel the rain fallin' hard tonight  
So much in your world never going right  
Losing all the strength you have to fight  
Feels like you're going down

But I'm here so you can hold my hand  
I can take your worries while you take your stand  
There's nothing I won't do  
'Cause you can always lean on me

When there's no one you can think to call  
And nobody seems to care at all  
If it makes you feel better  
You can always lean on me

And when everybody fades away  
Just remember that I'm here to stay  
When you wake up in the morning know  
You can always lean on me, on me, me  
On me, on me, me, on me, on me, me  
On me, you can always lean on me

Now, now, now, I don't know all of ya problems  
But I know I'll play the calculator just to solve 'em  
You can either trust me now or later, it's no problem  
I'm a be the hottest operator when you call in

You goin' have the right friend  
With the right conversation  
You ain't gotta question, girl  
There ain't no replacement  
Yeah, it's a crazy world but I'm kinda psycho  
We ain't no accident, no one callin' Geico

Life is getting heavy so I'm a give it lypo  
It's us against the world  
They don't wanna pick a fight though  
Broke the rule, Bonnie and Clyde  
We ride till we die  
But we ain't goin' out tonight, yes sir

When there's no one you can think to call  
And nobody seems to care at all  
If it makes you feel better  
You can always lean on me

And when everybody fades away  
Just remember that I'm here to stay  
When you wake up in the morning know  
You can always lean on me

You don't have to worry with me, me  
Down forever we'd be, be  
You got someone out there say  
Hey, hey, hey

You don't have to worry with me, me  
Down forever we'd be, be  
You got someone out there say  
Hey, you can always lean on me

When there's no one you can think to call  
And nobody seems to care at all  
If it makes you feel better  
You can always lean on me

And when everybody fades away  
Just remember that I'm here to stay  
When you wake up in the morning know  
You can always lean on me

You can always lean on me  
You can always lean on me  
You can always lean on me  
You can always lean on me

You can always lean on me  
You can always lean on me  
Yes, you can always, yes, you can always  
You can always lean on me

You can lean on me, yeah  
You can lean on me  
You can lean on me, yeah
