

# Let It Roll

## Group 1 Crew

Hey, you know we got it goin' you know we  
Ho, you know we got it goin' you know we

Take a minute to listen to what we talkin' bout  
No time for drama we got a message we're letting out  
G1C and the Father we gonna show you how  
Let go of all the things that's holding you down  
So just believe there ain't nothing getting in our way  
Don't get caught up on the little things that people say  
Just let it roll off your back and go about your day  
Now all my people come and gather around yeah

Chorus:

Everybody (let it roll)  
You know you wanna (let it roll)  
Don't stop (let it roll)  
Let it roll, let it roll, let it roll,  
(Let it roll) you know you wanna (let it roll)  
Don't stop (let it roll)  
Let it roll, let it roll, let it roll

Hey everybody we just came to party like  
Work your way down, down to the floor  
Keep acting like you can't get enough

They want something that makes dance  
Freeze! Got you in a b-boy stance  
We! Won't stop 'til we get a chance  
To see! The whole world dance to this track  
Body rock  
Group 1 won't stop  
Pop & lock  
We got hip-hop  
Whether you want it or not  
God ain't done with what we got

Let this music take you to a place  
Where all your problems roll away  
Feel the rhythm in your soul  
And all you worries let them go

Hey DJ play that stuff  
I don't think they've had enough  
You know how we rock it  
Down to the ground won't stop it

G1C got what you want, wanna  
Get crazy if you really want it, want it

Check it out let it roll off your back  
Let them hate cause a fact is a fact  
We done been through so many things  
It always seems like the world keeps holding us back  
We ain't got no time to slow down  
The world is in need of a crew who knows how  
To rock the mic without compromise  
And still keep it fly and bring the funk to the no-down
