

## Set Sail

### Group 1 Crew

This could be so simple, don't make it so hard  
All my love can fill the ocean, set sail for my heart

And I can love you like nobody else  
Let my every word be the wind in your sails  
And anytime you want, you can hide up under me  
Let me be the voice that can calm down your sea

I promise I'll never leave, never leave, let me anchor your soul  
I can be your everything, everything, I'll never let go  
When the rain is falling down, falling down, and you feel so alone  
Chart a course to find your way back home, set sail for my heart

Now you ain't ever been nautical, but you sure been prodigal  
You've been tossed back and forth by the waves and the shore  
Lifestyle astronomical  
And you're scared of the rain when the storm hits  
But forget that I walked on the storm, it's  
Never a question if I'll navigate you through it  
You're my heart, I'll do it all again to prove it

And I can love you like nobody else  
Let my every word be the wind in your sails  
And anytime you want, you can hide up under me  
Let me be the voice that can calm down your sea

I promise I'll never leave, never leave, let me anchor your soul  
I can be your everything, everything, I'll never let go  
When the rain is falling down, falling down, and you feel so alone  
Chart a course to find your way back home, set sail for my heart

I can be your anchor, I'll hold you down  
I can be your anchor, I'll hold you down

I promise I'll never leave, never leave, let me anchor your soul  
I can be your everything, everything, I'll never let go  
When the rain is falling down, falling down, and you feel so alone  
Chart a course to find your way back home, set sail for my heart
