

# Spinning

Grouplove

I hit the ground, yeah I came in running  
Was coming up when all the rain was pouring down  
You'd never know that I was always spinning  
I turn the corner and I pass right through the crowd

Me, I would never know  
See, I can never wait  
Me, I can never stop my world from spinning  
See, I can never grow  
Me, I can never be  
See, I can never go, the walls keep falling

Say here I stand  
I was broken, now I'm brave  
Say here I am  
Found my colours in the grey

My legs are tired, but I keep on pushing  
I drop my hands and let my head fall heavy down  
It's like I found my only child gone missing  
I raise my arms up to the sky and show my crown

Me, I would never know  
See I can never wait  
Me, I can never stop my world from spinning

Say here I stand  
I was broken, now I'm brave  
Say here I am  
Found my colours in the grey

Me, I would never know  
See, I can never wait  
Me, I can never stop my world from spinning

Say here I am  
And we'll stand until I'm gone

Woe to the end of the road  
Everyone who's far away from home  
And it's all that I know  
Growing up and growing old

Me, I would never know  
See I can never wait  
Me, I can never stop my world from spinning

Say here I stand  
I was broken, now I'm brave

Me, I would never know  
See I can never wait  
Me, I can never stop my world from spinning

Say here I am  
And we'll stand until I'm gone
