

Nothing Like You

Gryffin

We started in the same neighborhood
Teenage hope misunderstood
Stars fell around us in a wasted place
We took your parents car out of town
Lost our minds til the sun went down
So we tried to grow up good one day

We were young, kind of foolish
Deep down love kind of friendship
Lost beneath in an endless wave
We gave up on the good life
Threw our souls to the high tide
Never thought it would end this way

We ain't best friends no more
Cuz I'm nothing like you
Two years, no love, no call
Now I'm nothing like you
I guess I'm riding solo
I guess I gotta let go
We ain't best friends no more
Cuz I'm nothing like you

(Cuz I'm nothing like you)

We used to keep our worlds tangled tight
Both our futures on one line
Just two tigers in a forest fire
But then we lost our stripes
We didn't care
You said you'd call, I was never there
Can we go back to the wilder life?

We were young kind of foolish
Deep down love kind of friendship
Lost beneath in an endless wave
We gave up on the good life
Threw our souls to the high tide
Never thought it would end this way

We ain't best friends no more
Cuz I'm nothing like you
Two years, no love, no call
Now I'm nothing like you
I guess I'm riding solo
I guess I gotta let go
We ain't best friends no more
Cuz I'm nothing like you

(Cuz I'm nothing like you)
