

Takin' On the World

Guardian

I've been ridin' ten thousand miles
of memories; been up and down
and 'round this crazy world. I'm just
a simple man, but one thing that
I know for sure... in this life there
ain't no middleground

The things I want to say, the world
don't want to hear. Don't care
what people say, gonna say it
loud and clear

CHORUS:

T-T-T-Takin' on the world, you know
we're takin' on the world.
T-T-T-Takin' on the world you know
we're takin' on the world

Most of my life, my heart was
chained to empty dreams; took my
fill but it never was enough. Then
Holy Fire burned right thru my
empty soul, took ahold, won't ever
let me go.

The things I want to say, the world
don't have to fear; don't care what
people say, gonna say it loud
and clear

CHORUS

T-T-T-Takin' on the world, you know
we're takin' on the world. Jesus
ain't no joke to me, He's the One
that set me free. I'm takin' on the
world, you know we're takin' on
the world. Yes I know that time will
tell; I'll be standing at the bell...
Takin' on the world
