

## Can't Stop

Gudda Gudda

Poetry emotion, flowing like the ocean  
I was down now I'm up like ten Viagra doses  
I'm the future, spittin magic, voila, hocus pocus  
Copperfield a object, here's to put the plan in motion!  
Big money for the hosting, double up for the show  
Tell the promoter I want the back in before I hit the dough  
That's how I got the gold boy, cash on delivery  
Pay me for my bars, I mix with my delivery  
Underrated, trying to get paid like a superstar  
Still a street nigga, I gave the pistol to Scoopa Skull  
Not a ball player, never plan to be a hookin star  
Can't stop now, keep it rolling like a moving car  
LAT is who we are, ease on a mission  
Speakin everything that we believe into existence  
With the grind I'm persistent, my mind's like a Smith & Wesson  
Shots pop off in every session, nigga!

No response, conversation sounded funny  
It's like they told me stop getting money but (I can't stop)  
But learn from your mistake,  
Yeah I know, but it takes time  
Gotta keep a weapon off the waistline but (I can't stop)  
Reaching you peak, automatically it takes grind  
Even on the corners in the daytime! (I can't stop)  
Million dollar dreams I done seen trying to make mine  
Don't even comprehend the word breaktime cause I (can't stop)

Nigga, I'm plugged like 18 sockets  
All homo ass nigga, trying to raid my pockets  
While I'm big and back booling about to lace my broccoli  
I could tell my blood brother get him ASAP Rocky  
Reporting from the East Side of the boondocks  
I crank it in your hand of your boom box  
This not hip hop, when that 2 pop  
Get it? When that 2 pop!  
Let's rock & roll while I'm puffing it strong  
I'm getting white boy high as I bump the remotes  
I've been going in since my baby momma water burst  
Niggas got the hands out, I gotta feed my daughter first.  
I live by the beat, I live by the beat  
Like you live check to check!  
So if you don't move your feet then I don't eat  
So we're like neck to neck, so nigga I can't stop!

Make no Statue of Liberty for me  
Trying to see the grand statue of Liberty on the key  
Let freedom rang forward

Point council brought the pill in the freedom ring  
Missin writin rhymes, committin crimes, trying to free the team!  
Broken on and tumbling  
Hail Mary, I stumbled into something that could take the percussion out of yo  
ur suffering  
Stuck on being stubborn, heartbeats are flooded with don't kill  
I'll leave a concussion and cut your jugular  
Bitch, I'm going out my mind, I ain't going in  
Come on pull the motherfucking stomach, I could throw it in  
Poster big, poster kid, we're nothing alike  
Supersonic coop on Monday, pourin lean up in the Sprite  
Look who leaning to the right  
Rubber band Shorty  
Know it's got a name, but I don't know what to call it  
Can scorchin the iron, heat steamin, free shootin  
Nobody, tell a nigga, eat you!
