

It Ain't Ok

Gudda Gudda

Corrupted system, I can be a victim
Knee to my neck if I don't listen
I need my respect and I'ma get it
We need our respect and we gon' get it
You started the revolution, rioting and looting
Tell us to put our hands up, be quiet and then you shoot us
Now you can't pay us to keep quiet, you can't mute us
They televise our deaths and put us live on the computers
Minority report, I'm speaking live from the gutter
I'll be lucky if I make it out alive from the gutter man
They don't give a fuck about us
I guess it's time to do something about it
Rest in peace, George

It ain't okay, it ain't okay
Knee to my neck if I don't obey
Tried to plead for my life but you said "No way"
I can't breathe, man you let my soul float away
It ain't okay, it ain't okay
Knee to my neck if I don't obey
Tried to plead for my life but you said "No way"
I can't breathe, man you let my soul float away

Fuck a pay leave, they don't need suspension
Life in prison better be the final sentence
Fuck a pay leave, they don't need suspension
Life in prison better be the final sentence

Yeah, they try to lock us in a cage in the system
So now we letting out this rage so you can feel it
Politicians, listen up
All lives matter and that is true but
All lives can't til black lives matter too
So we tearing down statues, setting flames to the [?]
Knocking on the White House doors so Trump can see me
Don't pay attention to the propaganda on your TV
If we don't obey, they might kill us live on TV

It ain't okay, it ain't okay
Knee to my neck if I don't obey
Tried to plead for my life but you said "No way"
I can't breathe, man you let my soul float away
It ain't okay, it ain't okay
Knee to my neck if I don't obey
Tried to plead for my life but you said "No way"
I can't breathe, man you let my soul float away
George
