## **Mincer Ray**

## **Guided by Voices**

(i don't know)

mincer ray don't worry
if the road's a little worn
it's a cold and filthy cavern
that we're traveling on

richer day assured me of the weak-link mending plan danger's always there to follow just do the best you can and a light shines down...

mincer ray don't worry
if the road's a little worn
it's a cold and filthy cavern
that we're traveling on
and a light shines down
and a light shines down.
