

# Inside

Guillemots

I drove all night  
To beat the morning  
Inside  
There were cracks in the mirror  
There was smoke in the glimmer  
Inside

Take me with you  
Take me with you  
Take me with you  
Something's going on inside  
Yet so far away

Something borrowed me in the night  
A crack in the smile of the harbour lights  
Rapture round our fingertips

I'd like to get to know the places you let go  
Inside  
Oh come out to play  
You dark dogs carry me with you

Standing on the shore of a shipwrecked promise  
Standing on the shore of a shipwrecked promise

I'm driving with you  
I'm driving with you  
I'm driving with you  
To the roads  
To the roads inside

And I'm dying like you  
I'm dying like you  
I'm a child like you  
Take me with you inside

Snow falling
