

Magic

Gungor

La lala la la la

To the miracle of sign and the magic
All the angels flap their wings with the dragons
All the stories tell
Of the truer truth
How's the sky so blue?
All of the magic

To the miracle of life and the magic
All the atoms we arrange, enigmatic
See the earth it spins
Round the sun it goes
All the trees they grow
Into the magic

Come breathe it in the air
Feel it on your skin
Come play it on your drum
Feel the beat within
Love like a mystic drug
Filling everything
La lala la la la

Come breathe it in the air
Feel it on your skin
Come play it on your drum
Feel the beat within
Love like a mystic drug
Filling everything
La lala la la la

Come breathe it in the air
Feel it on your skin
Come play it on your drum
Feel the beat within
Love like a mystic drug
Filling everything
La lala la la la

All this miracle and light
All this magic
There is nothing left to hide
Bring your sadness
Bring your disbelief
Bring your tambourine
You can dance and sing
Here in the magic

Come breathe the air
Feel your skin
Come play your drum
Feel the beat within
Love everyone
Everything
La lala la la la

Come breathe it in the air
Feel it on your skin
Come play it on your drum
Feel the beat within
Love like a mystic drug
Filling everything
La lala la la la
