

We Are Alive

Gungor

Come to the water if you're thirsty
Drink of the river cold and deep
Whatever may come
All are welcome
Every saint and sinner free

Come to the fire if you're lonely
Warm up your hands and grab a drum
Everyone singing
Some are dancing
You can sit here and join along

We are alive
We are alive
We are alive
Seize the day, you're alive
Come to the table if you're hungry
Eat of the bread and drink the wine
It may seem crazy
All the glory
That can be found by coming alive

We are alive
We are alive
We are alive
Seize the day, you're alive

We are alive
We are alive
We are alive
Seize the day, you're alive

Come to the water if you're thirsty
Drink of the river cold and deep
Whatever may come
All are welcome
Every saint and sinner free
