

## My Definition

## Gunplay

She throw my weed in my blunt  
She laced my Rees and my Chucks  
She buy me Dickies and guns  
Now that's my definition, baby, simply the one  
She like a rider on the jigsaw  
When they pick up the front  
Have my bail when I fail  
Got me a phone in my cell  
Clean the coke out my nails  
She's so focused, I swear  
Help me tally my count  
Even balance my ounce  
Even though she talk shit  
She got a talented mouth  
She love my Levi's and Skullies  
And all the tats on my tummy  
And all the stories I tell her  
On howl bleed for this money  
Just know that you special  
Like the trey eight on my dresser  
Put two hands together for her  
Like a plate when I bless it

My definition of a rider  
She balance me out  
Balance my ounce  
That's what it's 'bout  
My definition of a rider  
Put the dope in the box  
When we get roped by the cops  
You ridin' or not?  
My definition of a rider  
She my definition  
My definition of a rider  
That my definition  
My definition of a rider

Hit the LC in the driveway, washin' the fours  
I went to twist me somethin', seen it was already rolled  
I slid into my clothes and told baby girl, let's roll  
On thirteen inches, Honda spokes, twenty four karat gold  
Yeah, baby cold as ice and she twice as nice, makin' dough  
We both hustlers, so you know how that go  
Stash concealed within' the flow, matchin' whips, suicide door  
Bumper sticker read, kill yourself, hoes, cased closed  
Comparison to mama, hell no, she in a class all her own  
Smokin' weed on my grind until I make it home  
Then it's lights, camera, action, she a private dancer  
A mermaid swimmin' in cash, her dollar bill splashin'

My definition of a rider  
She balance me out  
Balance my ounce  
That's what it's 'bout

I won't leave you alone  
I'll be there anytime you call  
I'll pick up your phone  
Love you for who you are  
Now I think that you're a star  
Whether with or without it, baby  
You know who we are  
Baby, sit on your throne  
'Cause you deserve it  
So please enjoy it  
'Cause baby, you know you worth it  
She's here to listen  
Cook in the kitchen  
Great conversation, baby

You're my definition of a rider
