

Vacation

Guttermouth

I never wanted to be in charge
I never really wanted to have a big car
I was always told if I worked real hard
I'd always be a sucker
And my life would pass me
Take a minute to stop and listen
Not everything I do has reason
I'm not always gonna get things right
The mistakes I've made
They're gonna get paid
I need a vacation
A holiday in the sun
I need a vacation
From you
Try to stop but please don't dare me
Doing wrong but the cops don't scare me
Two wrongs gonna make it right
Do it my way all night long
Never listen to a word you say now
Gonna write my own book to live now
People always want to tell me how to live my life
Try to stop but please don't dare me
Doing wrong but the cops don't scare me
Two wrongs gonna make it right
My way all night long
Try to stop but please don't dare me
Doing wrong but the cops don't scare me
Two wrongs gonna make it right
Do it my way all night long
Never listen to a word you say now
Gonna write my own book to live now
People always want to tell me how to live my life
