## **Jack of All Trades**

Now I don't mind workin' hard You can't burn me down They ain't made a job That I can't work my way around Sometime I do it for the money Sometime for the glamour Sometime I use my head Sometime I get a bigger hammer

I worked on the railroad I worked in the fields I'm a steeple jack and it's a fact I drive anything on wheels I can frame a house drive pilin' Pour that wet concrete Take a weldin' rig and build a bridge And I can do it in my sleep

I'm the jack of all trades I love every lick I get If I ain't got the job done son I might not want to quit I'm the jack of all trades That makes me the boss You gonna get your money's worth No matter what it costs

I don't work assembly line Doin' the same ol thing Same ol shop the same ol clock Playin' the same ol game I don't want no desk job man It don't suit my clothes I don't need no engineer Just to show me how it goes Hmm hmm show me how it goes

I'm the jack of all trades I love every lick I get If I ain't got the job done son I might not want to quit I'm the jack of all trades That makes me the boss You gonna get your money's worth No matter what it costs

There ain't no need to do a job It I can't do it right I may not be gettin' rich But I'm sleepin' good at night Some call me a gypsy Some call me a flake But I'll kiss your ass if I don't earn Every dime I make

I'm the jack of all trades I love every lick I get **Guy Clark** 

If I ain't got the job done son I might not want to quit I'm the jack of all trades That makes me the boss You gonna get your money's worth No matter what it costs
