## I'll Splatter You Like Jackson Pollock

## **Gwen Stacy**

What do you have to accomplish When you talk less of your maker What riches you receive Will do you no good in your place of rest When it's the time to go Tell me once again why I'm here I've done nothing, to receive nothing Don't wait for me no Don't wake me up (Don't wake me up) Cause I'm a ghost (Cause I'm a ghost) A ghost with no footprints I have retreated so far into my own skin (Fully awake yet fully asleep Dreaming my life away) How long can I live like this (I live like this) I've got nothing but trust in you So please carry me to this spot A place to call home Make an effort to change your ways Or your ways will change you Because I'm carved on the inside Just a cage of bones to hold I'm empty on the inside Fill me with a love to show Don't wait for me no Don't wake me up (Don't wake me up) Cause I'm a ghost (Cause I'm a ghost) A ghost with no footprints I have retreated so far into my own skin (Fully awake yet fully asleep Dreaming my life away) How long can I live like this (I live like this) Death has taken over me But only as an absence I'm hollowed on the inside Turn me upside down and shake till the bones fall out Try me on fit me for size Use my body as you will Maybe this time I'll be the one To control my shakes instead of Letting my body be my soul Letting my body be my soul Make an effort to change your ways Or your ways will change you Make an effort to change your ways Or your ways will change you
