

You're My Favorite

Gwen Stefani

I'm pretty simple,
But I have explored
Thought I had found it,
But I wasn't sure
Always a feeling that there could be more
Could be more...

But I've been there, done that,
Bused it, tried it more than I can count
Shook it, stirred it,
Broke it, smoked it more than I can count

Ooh..
But out of everything,
You're my favorite
I tried a lot of things,
But you're my favorite
Oh, I think I worked this out,
Finally worked this out
Cause of out everything,
You're my favorite

The way that you kissed me wasn't typical
Take me out of my body,
Something spiritual
Think I need seconds,
Maybe thirds or fourths
Oh...

But I've been there, done that,
Bused it, tried it more than I can count
Shook it, stirred it,
Broke it, smoked it more than I can count

Ooh..
But out of everything,
You're my favorite
I tried a lot of things,
But you're my favorite
Oh, I think I worked this out,
Finally worked this out
Cause of out everything,
You're my favorite

Momma, can I keep him?
I promise I'll take care of him

But I've been there, done that,
Bused it, tried it more than I can count
Shook it, stirred it,
Broke it, smoked it more than I can count

Ooh..
But out of everything,
You're my favorite
I tried a lot of things,
But you're my favorite

Oh, I think I worked this out,
Finally worked this out
Cause of out everything,
You're my favorite
