

Be Alright

Gyptian

Woke up today, turned off my phone
Jumped out on highway and nobody know
and I'm zoomin' in, guess I'm well enough
Tonight I'm on my own and I ain't got to doubt that

I'll be alright, I'll be alright
I'll be alright, alrigh

You get once chance to live
One chance to learn so we better begin
I'm here ready to win so I'm letting go
I don't want it do end, hands in the air 'cause the top off again
Dance right here, gonna dance till night
So I'm letting go

Every night I wish I could feel like this
Young, wild, and free, that's how I wanna be
Light shine on me, just you wait and see
It's a brand new day if I had my way

I'll be alright, I'll be alright
I'll be alright, alright

You get once chance to live
One chance to learn so we better begin
I'm here ready to win so I'm letting go
I don't want it do end, hands in the air 'cause the top off again
Dance right here, gonna dance till night
So I'm letting go

Tonight I'm letting go for I had
And I ain't going nowhere till the sun comes down
Oh, I'm letting go

You get once chance to live
One chance to learn so we better begin
I'm here ready to win so I'm letting go
I don't want it do end, hands in the air 'cause the top off again
Dance right here, gonna dance till night
So I'm letting go

You get once chance to live
One chance to learn so we better begin
I'm here ready to win so I'm letting go
I don't want it do end, hands in the air 'cause the top off again
Dance right here, gonna dance till night
So I'm letting go
