Alright
So if you got em - light em up
Open your minds
Lets go to war

Today's the day The time is here We take back control And conquer our fears For as it was written my friend So shall it be I ride with the most high Who can stand against me Ride with me An advance towards the light In the darkness I break it down slowly Roll up and spark this In this moment on this track I attack all the lies We accepted as truth We were duped By the schoolbooks and teachers The blind leading the blind Through the garden of eden But time after time We had the prophets to lead us Still line after line Was written down to decieve us But they will never defeat us

Until the end of time
I will rebel in the face of all tyrants
The fire burns on high
As above so below, now be careful
Until the end of time
We will fight for the rights of our children
The fire burns inside
My curiousity leads me to Zion

Wake the fuck up

So if you got em - Light em up Warriors Come out and play

In the year 20-07 AD
The working man got so tired of waiting
Not all those who have eyes
Will see what i'm saying
Not all those who have ears
Will hear a note that we playing
Homie you know me
I dont fuck with no phonies
All these chronies in this industry
Can all kneel down and blow me
I came to do battle

With the counsel of churches Politicians and gunmen Who would lie, rob, and hurt us Keep us deaf, blind, and dumb So we cant find out guns Asleep when the storm troopers come For our moms So run nigga run Til you cant catch your breath It's too late Cuz you already dead But you wide awake You already dead But you wide awake You already dead But you wide awake You already dead You're in a fucking coma

Until the end of time
I will rebel in the face of all tyrants
The fire burns on high
As above so below, now be careful
Until the end of time
We will fight for the rights of our children
The fire burns inside
My curiousity leads me to Zion

Listen carefully
I dont have much time left
There are so many things i want to tell you
But we gotta be careful
I think i'm being watched

Galileo was imprisoned by the church
For exposing that the earth was not at the center of the universe
So in 1616 they already had control
Of what they thought you and i were allowed to know
They knew the world wasnt flat
But that was knowledge we weren't supposed to have
They knew all about the new world
Way before Christopher Columbus set sail
Witness the rebirth of Atlantis
And we're all apart of it
What a beautiful fucking time to be alive, eh?

You know i'm not surprised the Illuminati had to keep it a secret I'm surrounded by fucking idiots
Jesus fucking fucking christ

Until the end of time
The fire burns on high
Until the end of time
The fire burns inside
My curiousity leads me to Zion

Wake the fuck up

So if you got em - light em up Warriors
So if you got em - light em up
