

Here And Now

(həd) p.e.

Here and now
We are face to phase
Caught in this time and place
We are not afraid

Hear me now
These are the days of daze
In the right time - the right place
Were not afraid

So fear me

Can anybody hear this?
No more lies
I'm done with the secrets
Wake (the fuck) up
We wont stop
Stand up
Let every body drop

No! were not goin away
Now we got the power
We got somethin to say

What?

Too little, too late
This is our time
This is our day

Here and now

Hear me now

Were not afraid

So fear me

Welcome to the family
One heart
One world
One mind

Get your soul
Get in line

Stand up
Let every body drop

No! were not goin away
We run this (shit)
We got somethin to say

Were all connected
This is our time
You must respect it

Here and now

Hear me now
These are the dayz of daze
In the right time
The right place

I'm not afraid, so fear me

No! im not goin away

I got somethin to say
I'll never, ever be the same

Can you feel me?
Were gonna make history

I'm not afraid

You scared?
Say your prayers

One time
One chance
To get it (fucking) right.
