

A Shot At Redemption

H.E.A.T

I've been hidig for far too long
seems like forever been singin' on this song.
I've been tryin' to hard, too long
seems like forever been singin' on this song.
Now and forever been singin' on this song.

Yeah, yeah!
Oh!

Looks like obscene what one has done
has turned another man to a rolling stone.
I been strucked out, lying on the crowd
with the bitter taste of lovin' in my mouth.

I've been hidig for far too long
seems like forever been singin' on this song.
I've been tryin' to hard, too long
seems like forever been singin' on this song.
Now and forever been singin' on this song.

And the worst pros and cons
knowing what I do can never be undone.
Lord, have mercy on the souls
and my retaliation strike is about to fall.

I've been hidig for far too long
seems like forever been singin' on this song.
I've been tryin' to hard, too long
seems like forever been singin' on this song.
Now and forever been singin' on this song.

When you fight for freedom
there's no tomorrow.
It's time for you
to pay for your crime.

I've been hidig for far too long
seems like forever been singin' on this song.
I've been tryin' to hard, too long
seems like forever been singin' on this song. (x3)

Now and forever been singin' on this song.

Do I was, lying on the crowd
with the bitter taste of lovin' in my mouth.
