

## Back to the Rhythm

H.E.A.T

We are the universe the very first to ride the wave  
The ones to break the curse and free the world, no one enslaved  
This time we have to deliver 'cause no one will be the one who'  
s left behind  
A lifetime, the chance we've been given to move on and on from  
the night

Back to rhythm of  
Back to the rhythm of fire  
Back to rhythm of  
Back in the rhythm united  
Back to rhythm of  
Back to the rhythm of fire  
Show me the way and we're back to the rhythm again

Until the end of all defend the walls and save the day  
So draw the force within we're channelling the dancing flame  
This time we have to deliver 'cause no one will be the one who'  
s left behind  
A lifetime, the chance we've been given to move on and on from  
the night

Who will you trust in  
Who will you trust in now  
Who will you follow  
Who will you will follow now

'Cause there is a lifetime, a chance we've been given  
To move on and on from the night

Back to rhythm of  
Back to the rhythm of fire  
Back to rhythm of  
Back in the rhythm united  
Back to rhythm of  
Back to the rhythm of fire  
Back to rhythm of  
You know, you know

Back from the dead  
Back to the rhythm  
Back from the dead  
Show me the way and we're back to the rhythm again
