

Danger Road

H.E.A.T

Danger road
Got to push it
Danger road
Got to push it

Love is a price you've gotta pay
when you're addicted
Addicted to that rush
Can't you see that you're loosing
what you once had
You've got to understand that

On and you you're finding your way
To get along with the sirens wails
I don't know what way you will go
All i know is the road you're on

Danger road
Living each day in the fast lane
Danger road
You gotta push it

Time is another thing
you really aren't blessed with
Pull yourself together
Why can't you never ever see
that you're drifting
Drifting from yourself

Over and over and over again
I can't believe you're not getting it right
I don't know what way you will go
All i know is the road you're on

Don't know, how will i know (why you keep)
Living each day on the danger road
Don't know, how will i know
Living each day on the danger road

Danger road, danger road
You gotta push it
