

Demon Eyes

H.E.A.T

Facing the storm on my own
Bracing for impact alone
I live and learn

Raising the walls in my mind
To give up, give in to desire before I burn
Time to burn

The scent of your trace
The thrill of the chase
I quickly descend into madness
Shackled and chained
Am I trying in vain
Running away from the eyes in the night
(Demon eyes) Demon eyes

Waking up inside a dream
Lost in a maze I can't flee
Set me free

The scent of your trace
The thrill of the chase
I quickly descend into madness
Shackled and chained
Am I trying in vain
Running away from the eyes in the night
(Demon eyes) Demon eyes
You've got those eyes
(Demon eyes)

Nowhere to hide, nowhere to run
No one can save me the damage is done
I'm facing the pain, it's fight or flight
Running away from the light in her eyes
(Demon eyes)
You've got those eyes
(Demon eyes)

Save me from madness (Demon eyes)
Save me from madness (Demon eyes)
Demon eyes
