

## Late Night Lady

H.E.A.T

In the midnight hour I just wanna be with you  
and I make you mine with a smile that you cant deny  
wake me up when the daylight fades  
cause I'm in mood for love baby love is all that i got

Lay down baby oohooohoooh  
show me what you got cause im all you need  
cause I'm all you need

I'm in love with a late night lady  
I'm in love with a queen  
I mess around with a late night lady  
I'm in love with a dream

Got me moved by the way that you rock my world  
and I cant believe what's it gonna be yeah you really set  
me free  
cause I'm queen of hearts

So damn good all the things that you do and ??  
baby driving me insane

(hot hot hot)
