

Nothing to Say

H.E.A.T

I don't feel it, I don't need it
I'm awake in this hollow shell
Come and read me I'm not deceiving
Catching my breath from this living hell
Whenever I close my eyes, you're there
Stuck on "repeat" inside my head
And I can remember yesterday
Now you're a ghost inside my head
I guess I believed you'd always stay
How could you leave me with nothing to say?
Full of loathing I am floating
In a sea without no wind
Out of motion the corrosion
Eating its way through my iron skin
Whenever I close my eyes, you're there
Stuck on "repeat" inside my head
And I can remember yesterday
Now you're a ghost inside my head
I guess I believed you'd always stay
How could you leave me with nothing to say?
Now you're a ghost inside my head
Here I am - I'm lost and found
Through night and day I will find my way
And I can remember yesterday
Now you're a ghost inside my head
I guess I believed you'd always stay
How could you leave me with nothing to say?
Now you're a ghost inside my head
How could you leave me with nothing to say?
Now you're a ghost inside my head
