

Victory

H.E.A.T

Standing strong, born to ride into the storm
Always searching for the righteous way to go
They are the light, they are children of the night
On the hunt to bring the masters to their knees

With their hearts in their hands
Make a stand for the ultimate win

Victory - forever they'll fight, born to stay alive
Victory - they never back down, they're heroes of our time
Victory - forever they'll fight, born to stay alive
Victory - they never back down, they're heroes of our time

Hold the line, seek the answer from inside
Forge ahead into an undiscovered world
Become the night, leave the suffering behind
And unite to shape a new reality

With their hearts in their hands
Make a stand for the ultimate win

Victory - forever they'll fight, born to stay alive
Victory - they never back down, they're heroes of our time
Victory - forever they'll fight, born to stay alive
Victory - they never back down, they're heroes of our time

With their hearts in their hands
Make a stand for the ultimate win

Victory - forever they'll fight, born to stay alive
Victory - they never back down, they're heroes of our time
Victory - forever they'll fight, born to stay alive
Victory - they never back down, they're heroes of our time

Victory - they're coming out to get you
Victory - you can't hide
Victory - they never back down, they're heroes of our time
Victory
