

We Are Gods

H.E.A.T

One way to heaven, one way to hell
Mankind's salvation, only time will tell

Many men believed the tales
They all fall in line
But there are many among us
Who believe in the truth
Let me hear you know

We are gods
We are gods of the universe
Stand up, get up, get on your feet
We're not going to make believe
Cause we are gods

One man to save us, one world enslaved
Indoctrination, from the cradle to the grave

Many men believed the tales
They all fall in line
But there are many among us
Who believe in the truth
Let me hear you know

We are gods
We are gods of the universe
Stand up, get up, get on your feet
We're not going to make believe
Cause we are gods

We are, we are
We are the gods
We are, we are
We are the gods

But there are many among us
Who believe in the truth
Let me hear you know

We are gods
We are gods of the universe
Stand up, get up, get on your feet
We're not going to make believe
Cause we are gods
We are the gods of the
We are gods of the universe
We are gods
We are gods
